

COVID VACCINATION UPDATE!

Covid vaccination information (Public Health Wales) - please note that you will be contacted by the health board or our surgery to arrange your vaccination in due course. Please **DO NOT** contact the surgery about this unless we have asked you to do so. Unfortunately, due to the ongoing uncertainty with regards to our weekly vaccine allocation from the health board, we are unable to provide you with an estimated time-frame for when and where you will be vaccinated, but what we can say is that, as from the week commencing 15th Feb, the health board will start inviting 68 and 69 year olds to the mass vaccination centre in Llandudno, whereas 65-67 year olds will be invited to our surgery.

Please click on the link below to read an important message from Betsi Cadwaladr Health Board that relates to Covid vaccination for those older than 70. Please share this message with others. Thank you.
